

Communication and Language

We will talk about our town of Eye and the people in it. We will think about the different people who help us in the town and share our experiences.

Personal, Social and Emotional Development

This half term, we will take on various roles of school staff in the role play area, as well as practise our road safety during walks around Eye and to the castle.

Literacy

We will continue to have daily phonics as well as read regularly each week. We shall practise using our phonic knowledge by writing in a variety of forms: labelling, a 'thank you' letter, a list and a recount.

Physical Development

In Dance, we will develop our expressive movement skills. The children will practise different travelling movements, shapes and balances. They will perform to others.

Mathematics

We will focus on comparing numbers and exploring the composition of them. We will practise combining two groups. Mass and capacity will also be covered.

Understanding of the World

We will talk about members of our school community and the different occupations within Eye. We will look at maps of Eye and images of the castle.

Expressive Arts and Design

The children will explore a variety of tools and techniques to practise drawing and painting as well as colour mixing and collage.
