

Communication and Language

We will talk about our own experiences of summer and going to the seaside. We shall use stories and non-fiction books to enhance our knowledge and understanding of seashores now and in the past.

Personal, Social and Emotional Development

We will continue to develop our relationships and skills of working together in our 'seaside' role play area. We will also practise our teamwork and sportsmanship during Sports Day. Before our trip to Great Yarmouth Sea Life centre and beach, we will discuss and practise the behaviour needed.

Literacy

We will continue to have daily phonics as well as read regularly each week. We shall write for a variety of purposes such as a list for a picnic, a postcard on holiday, a recount of our trip and our own seaside story.

Physical Development

In games, we shall develop our skills of running, stopping and throwing in order to play some team games. We will practise following instructions, working co-operatively and taking turns.

Understanding of the World

We will use maps to discuss different holiday locations, compare images of seashores now and in the past and observe and discuss the sea life on our trip.

Mathematics

We will be practising the skills of doubling, halving and sharing and finding out about odd and even numbers. The children will consolidate all of the maths skills they have learned this year.

Expressive Arts and Design

The children will paint simple representations of themselves at the seaside, make 3D lighthouses and explore movement in our PE enrichment day.
